

ALKALINE WATER FOR BETTER HEALTH

The only filtration in the world, today, that will reduce acidity in the body and it will produce natural calcium, magnesium, sodium and Potassium ions that can be absorbed 100% in the human body.

- Prevents Reproduction of Germs and Virus**
- Produces large quantities of hydrogen and oxygen**
- Produces higher pH from 6.5 up to 9.88**
- Reverses aging, due to reduction of acid wastes**
- Provides more energy and increases the metabolic process**

Alkaline water created by a water ionizer is relatively acid free and depending upon the alkaline mineral content of the tap water and the setting of the ionizer, the pH value of the alkaline water can range from 8.5 to 10.5. The main alkaline minerals of tap water are calcium and a small amount of magnesium. However there are three disadvantages to water ionizer. First is very high price. Second is the waiting period of one minute before drinking. The last but not the least disadvantage is the alkalinity won't remain at the same high pH value. It gradually goes back to the pH value of 7.2 ranges which is the same as the tap water.

Essential Minerals are vital to our organs. These are the symptoms when lacking of essential minerals: Fatigue, Insomnia, Loss of Hair, Depression, Diabetes, High Blood Pressure, Asthma, Decayed Teeth, PMS. Migraines, Heart Disease.

***The Alkaline filter changes the acidic R.O. water into a perfect Natural Alkali Calcium Ionized Water. The Aquasmart® Alkaline filter simply gives back minerals such as ionized calcium, magnesium, sodium, potassium ion, which were taken away while purifying the water. The Aquasmart® Alkaline filter is effective and affordable.

*Drinking alkaline water helps the body dissolve wastes and makes it easier to dispose them safely.

***The Aquasmart® In-Line Alkaline Filter can be used with: Natural Water, Hard Water, Filtered Water, Distilled Water, Ionized Water, Reverse Osmosis Water. Please ensure to use pre filters before the Alkaline Ceramic filter and you will enjoy high pH water for better health.

The Alkaline Ceramic filters are to be replaced every 12 months.

Item #1016 In-Line Alkaline Filter Each \$235.00

Item #1017-10" filter standard Alkaline ceramic filter Each \$115.00

Aquasmart® Six stage Reverse Osmosis with In-line Alkaline Filter

Item # 5011 Each Complete system \$735.00

1. Sediment Filter (Water In) item #1011
2. Granulated Activated Carbon item #1012
3. 5 micron carbon block #1013
4. TFC Membrane #1002
5. Alkaline Ceramic Filter #1016
6. Post filter (Water out) #1020
